

There are a lot of moving parts on a construction project, no matter the size. I always strive to create a collaborative jobsite using humor and my friendly nature. Communication between trade partners, consultants, owners, and onsite staff is paramount for safety, disruptions, and smooth flow to the project. My focus on schedule, budget, safety, and most important, the user groups, is how my projects succeed.

EDUCATION

- 4 Year Carpenter Apprentice

TRAINING

- OSHA 30 HR Training
- IBC Contractor's License

EXPERIENCE

- 13 years Construction Experience
