

Josh Lapp brings 13 years of construction experience to our projects. Josh's diverse background includes work as a project scheduler, working on well over 150 projects, as well as work as a Mechanical and Electrical coordinator. This background allows Josh to manage construction schedules effectively and work directly with Mechanical and Electrical subs to ensure efficient and quality installations. Josh has worked on buildings in occupied campuses and knows how to manage a project while being a good neighbor to those affected by the construction.

## EDUCATION

Colorado State University, B.S. Construction Management

## TRAINING

- ASHRAE Certified
- Construction Professional Certificate
- PLC Programming

## EXPERIENCE

13 years Construction Experience

## RELEVANT EXPERIENCE
