

Ted Laszlo DBIA, LEED AP, CHC VICE PRESIDENT

As Project Manager, Ted brings continuity to the design and construction phases of the project. Ted helps to guide the process to ensure that the Client's goals are met, including both the schedule and budget goals of the team. He will proactively manage the flow of information to ensure that the entire team has the correct programmatic information, design direction, and buy-in. Ted's role ensure that there are not gaps in information, scope, or expectations.
